Courses upon request

If you would like to host one of the following courses or have a group of technicians who would like to attend these courses please contact us: sciencehub@hertsandessex.herts.sch.uk

New to the Role of Science Technician

2-day course for new science technicians including understanding the role, navigating CLEAPSS, Health & Safety, chemical use, equipment, requisitions & planning, how to supply materials to class, maintenance tasks... and more!

Health & Safety for the Science Department

This course will cover key areas of concern in science departments and identify good practice in risk assessments for activities.

Chemical Handling

This course will equip you with the tools to safely manage and use chemicals within secondary school science, from delivery to disposal.

GCSE Biology/Chemistry/Physics practicals

For technicians supporting GCSE Science. Providing top tips, equipment trouble shooting and addressing areas students find challenging conceptually and practically. Practical specific pedagogy so that practical work is carried out effectively and successfully.

Chemical stores audit

An in-person review and audit of current practises and chemical stores to ensure your prep rooms are safe and compliant. Training for science technicians to learn how to identify hazards, safely organise storage, and manage waste according to the latest safety guidelines.
