

WORKING SCIENTIFICALLY ONLINE PACKAGE

Online twilight sessions for Primary Teachers

Confident delivery of Working Scientifically skills in the early years to Key Stage 2 is essential to developing critical thinking, nurturing children's natural curiosity and equipping them with the analytical tools they need to understand an increasingly complex world.

This school package of twilight sessions aim to provide teachers with strategies to confidently manage purposeful practical work that deepens conceptual understanding. To equip teachers with the tools to create a learning space that encourages pupils independent thinking and instil a joy of learning science.

Equip your team with the tools to turn everyday classrooms into laboratories of wonder and cultivate a vibrant, inquiry-led science culture in your school.

Online twilight sessions to include:

- Working scientifically in EYFS
- Working scientifically in KS1
- Working scientifically in lower KS2
- Working scientifically in Upper KS2
- Assessing practical science and working scientifically part 1
- Assessing practical science and working scientifically part 2

Cost per school to access all 6 sessions - all sessions will be recorded
